Patient Attendance Policy

Marathon Physical Therapy & Sports Medicine is committed to provide each patient with the highest quality of care while attempting to accommodate your schedule for your convenience. Therefore, we provide reserved time slots for each patient with a specific therapist in order to minimize your waiting and assure continuity of care. To achieve the best possible outcome, it is very important that you attend your therapy sessions, as scheduled.

While we are sensitive to the fact that an emergency may occur in a rare instance, cancellations, no-shows, and tardiness, decrease our ability to accommodate the scheduling needs of our patients.

Cancellation Policy

Marathon Physical Therapy & Sports Medicine requires at least 24 hours' notice for any cancelled appointments. This includes appointments that are cancelled and rescheduled for a different day.

A \$50 cancellation fee will be assessed for cancellations without 24 hours' notice.

No-Show Policy

Patients who do not show up for their appointment without a call to cancel will be considered as No-Show. Patients who No-Show three (3) consecutive appointments will be dismissed from the practice, thus they will be denied any future appointments.

A \$50 No-Show fee will be assessed for all no shows.

Lateness Policy

It is equally important that you are on time for your scheduled appointment. If you are aware that you are going to be late, please call the office and let us know. We cannot guarantee that we will be able to treat you if you are more than 15 minutes late for an appointment. If we are unable to treat you due to tardiness, your appointment will be considered a No-Show.

Please understand your pain may fluctuate as your course of treatment progresses and before you complete therapy. Having pain or not having pain are NOT reasons to cancel or no-show your scheduled treatment. If you are in pain, it is important to come in because there are treatments available and/or program modifications that can help lessen your pain. Likewise, if you are experiencing less pain, it is important to continue your care to progress your plan and prepare for discharge and provide self-management.
